### **STATEMENT OF SIGNIFICANT ACCOUNTING POLICIES**

#### **Accounting Assumptions**

The Financial statements have been prepared in accordance with Indian Generally Accepted Accounting Principles (GAAP) under the historical cost convention on accrual basis. GAAP comprises mandatory accounting standards issued by the Institute of Chartered Accountants of India (ICAI), Accounting Standards ('AS') prescribed by Companies (Accounting Standards), Rules, 2006 (as amendment) the provisions of the Companies Act, 1956, to the extent applicable. These accounting policies will be consistently applied. The Board will evaluate the effect of accounting standards issued on an on-going basis and ensure they are adopted as mandated by the ICAI.

#### **Use of Estimates**

In the preparation of financial statements in conformity with generally accepted accounting principles (GAAP) requires Board to make estimates and assumptions that will affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities on the date of the financial statements. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates. Any revision to accounting estimates will be recognized prospectively in current and future periods.

#### **Fixed Assets and Depreciation**

Fixed Assets are stated at cost of acquisition less depreciation. Cost of acquisition is inclusive of freight, duties levies and all incidentals attributable to bringing the assets to its working condition. Assets under installation or under construction as at balance sheet date are shown as capital work in progress.

Depreciation is provided pro rata to the period of use on the written down value method at the rates specified under Schedule XIV of the Companies Act, 1956 except the Temporary structures. Depreciation on Temporary structures is provided over the construction period on straight line method. Individual assets costing less than Rs.5, 000 are fully depreciated in the year of acquisition.

#### **Revenue Recognition**

- a) Income is recognized on accrual basis unless otherwise stated in these accounts.
- b) Revenue from sale is recognized after dispatch of goods to customers.
- c) Revenue for services is recognized after completion of each stage of service
- d) Revenue from software development (on time or material basis) is recognized based on software developed and billed to the clients.

#### **Foreign Exchange Transactions**

Foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and resultant gain or loss is recognised in the Profit and Loss Account.

#### **Investments**

Investments that are readily realisable and intended to be held for not more than a year are classified as current investments. All other investments are classified as long-term investments.

All investments are stated at cost, i.e., cost of acquisition inclusive of expenditure incidental to acquisition. Income from investments is recognised in the accounts in the year in which it is accrued and stated at gross values.

Short Term Investments are valued at cost or market value whichever is lower. In case of Long Term Investments, provision for diminution in value is made when it is permanent and material.

## Employee Benefits

## Borrowing Costs

Dilutive potential equity shares are deemed to have been converted as of the beginning of the year, unless they have been issued at a later date.

## Taxes on Income

Income-tax expense comprises current tax (i.e. amount of tax for the year determined in accordance with the income-tax law) and deferred tax charge or credit (reflecting the tax effects of timing differences between accounting income and taxable income for the year).

- a) Provision for current taxation has been made in accordance with the income tax laws prevailing for the relevant assessment years.
- b) The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been substantially enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the asset can be realized in the future; however where there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognized only if there is a virtual certainty of realization of such assets.
- c) The Company offsets current tax assets and liabilities (on a year on year basis) and deferred tax assets and liabilities, where it has a legally enforceable right and where it intends to settle such assets and liabilities on a net basis.

## Cash flow statement

Cash flows are reported using indirect method, whereby the net profit before tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from regular revenue generating, investing and financing activities of the Company are segregated.

## Provisions and contingent liabilities

The Company recognizes a provision when there is a present obligation as a result of an obligating event that probably requires outflow of resources and a reliable estimate can be made of the amount of the obligation.
